Kotagiri

Coimbatore

CERTIFICATIONS

- **Cybersecurity Certificate** Google — Coursera, Jan 2025
- **Basics of Python Skill Test** HackerRank, Jul 2024
- **Master in Graphic Designing** Adoro Multimedia, Nov 2022

PROJECTS

IoMT – Internet of Medical Things

Feb 2026

- Developed an IoMT-based healthcare monitoring system for collecting and processing patient health data.
- Implemented real-time health monitoring with proactive detection to identify potential health risks.
- Enhanced remote patient monitoring through connected devices and efficient healthcare data management.

Object Detection System | Python, Vs Code, React, Node.js

Nov 2023

- Developed a real-time object detection system using Python to identify and classify objects.
- Applied computer vision and image processing techniques to improve detection accuracy and performance.
- Built an application for automated object recognition using live video and image inputs.

Online Blog Platform | Java

Nov 2025

- Developed a responsive online blog platform for creating, editing, and managing blog posts.
- Implemented user authentication and content management features for secure access
- Designed a user-friendly interface with responsive layouts to enhance the overall user experience.

TECHNICAL SKILLS

Languages: Python, Java, MySQL

Developer Tools: GitHub, Vs code, Eclipse

Technologies/Frameworks: React, Node.js, MongoDB

SOFT SKILLS & INTERESTS

Teamwork & Collaboration

Logical Thinking

ProblemSolving

Communication

Interests: Cybersecurity Labs, Chess & Logical Puzzles

LEADERSHIP / EXTRACURRICULAR

Paper Presentation on Mobile Cloud Computing

Nov 2022

Shine 2k22 Symposium

Shine 2k22

- Presented a paper on **Mobile Cloud Computing**, highlighting its architecture, applications, and benefits in modern mobile environments.
- Strengthened technical communication and presentation skills by explaining cloud computing concepts to an academic audience.

Graphic design Enthusiast

High Level editing skills

Free Lancer

- Designed creative digital assets, including logos, social media posts, banners, and marketing materials using Adobe Creative Suite.
- Passionate about visual storytelling with a strong eye for typography, color theory, branding, and user-centric design.
